Features

- User-friendly and modern interface
- Scan CAN bus for CANopen compatible
- Readout and configure MGB-tech CANopen devices
- Presentation of realtime device data
- Reset devices to factory defaults
- Firmware update
- CAN bus logging

Made to endure

MGB-TECH developed a **software configuration tool**, designed to simplify and **streamline the setup** of MGB-TECH CANopen-based machine guidance devices.

The software **reduces commissioning time** and **minimizes configuration effort**, allowing users to tailor their machine guidance solutions with confidence and precision.
